Dr. Bart Van Daele, Belgium has a vast experience on hospital management for improving efficiency in Belgium and other European countries. He is Health care management consultant at Turimm bvba into development of strategic decision software. He shared his experience with students of IIHMR on various topics like financing models, policy, budget and stress issues of health care. The faculty and the students utilized this opportunity by asking questions regarding 'healthcare funding models suitable to Indian context'. Dr. Bart Criel quickly responded to the questions on funding models. This lively session provided exposure to the students on different health care systems in the world.
